The **College of Urban Affairs** was established at Cleveland State University in 1977 to provide academic and professional education in the field of urban studies, to promote and engage in urban study and research, and to provide public service links between the University and the urban community. The Department of Urban Studies within the College offers bachelor of arts and master of science degrees in urban studies. The Urban Center administers outreach programs of the College, providing specialized education and training opportunities, research and data base capabilities, and technical assistance services to local officials, agencies, and organizations. The Ohio Board of Regents designated the College as the site of a prototype program linking up the skills and resources of the College and the University with the needs of the urban community under the Ohio Urban University Demonstration Program approved by the Ohio General Assembly in 1979.

Publication of this book was supported by the College of Urban Affairs. The contents reflect the views of the author, who is responsible for the facts and accuracy of the information and data presented.
