Other divisions wait for the crossing between ZAHONY and TISZADEBRO. Listeners should not be alarmed by the fact that the Soviet troops do not leave along the routes which they used when entering Hungary. While they came to Hungary through ZAHONY and BEREGSZASZ, they are leaving the country in various directions. They came to Hungary marching for a week, day and night, but it is possible for them to leave the country within 12 hours. This is also necessary because we have been in arms for seven days and keeping watch the seventh night on our independence and freedom. There is no reason for alarm. Let us wait disciplined until they all go. (Radio SZABOLCS SZATMAR)

The Hungarian delegation was led by Minister of State LOSONCZY and included Jozef KOVAGO, Andras MARTON, Ferenc FARKAS and Vilmos ZENTAI.

Four days after entering in function the members of the revolutionary worker-peasant government were sworn in. The following resolutions were brought at the first meeting of the council of ministers: 1. All ministerial employees have to report immediately at their place of work. 2. The local administrative organs are the council executive committees. 3. Public functionaries are ordered to resume their work by November 10. Those who fail to do this of their own accord will be regarded as having voluntarily resigned from their jobs. 4. Revolutionary committees should without delay expel counter-revolutionary elements from their ranks. The revolutionary committees are only consultative bodies in relation to the executive committees of the councils. 5. Railwaymen should resume work immediately. 6. According to a decree published by the commissioner of public food supplies food shops in BUDAPEST should be re-opened as from 0800 hours on November 9.

(It is interesting to note that all the orders given by KOSSUTH Radio on November 8, in the form of decrees or appeals, were dated from BUDAPEST, November 7.)

The national police headquarters issued instructions to all policemen to report to duty immediately.

Istvan KOSSA, Minister of Finance, gave orders that those workers who resume work before November 10 should be given salary advance.

Prime-Minister Janos KADAR informed several leaders in SZOLNOK of the political situation.

According to KADAR, the uprising which started on October 23 claimed in the beginning rightful demands but later took a turn for the worse. Counter-revolutionary forces tried to use the uprising for their own aims. Enemy "elements" from the West also participated in the events of the last days. The delaying policy of the Imre NAGY government supported the counter-revolutionary forces. It is for this reason that the Hungarian Worker-Peasant Revolutionary government asked Soviet troops to intervene. When order is restored, the Hungarian government will start negotiations with the Russians for the withdrawal of their troops from Hungarian territory.

Radio speech of Sandor RONAY, Minister of Commerce. RONAY condemns in sharp terms the criminal policy of RAKOSI and his clique. The peoples' despair, deriving from this policy, was used by the counter-revolutionary forces to restore the old regime. In the conclusion of his proclamation, RONAY begs the "counter-revolutionaries" to stop fighting.

The leader of Szabad Nep (published in SZOLNOK) entitled:
"In the name of Humanity and Honor," condemns the terror of the counter-revolution but at the same time appeals that it should not be repeated now against the uprisers. "We should not allow the repetition of the violations of law which took place in some places during the past days."

1907 Appeal of the Free Hungarian National Trade Unions. The appeal condemns the despotism of the RAKOSI clique and the counter-revolutionary tendencies of the last days and sides with the KADAR government. It proposes the government
1. to form immediately Hungarian home-guard and police organizations;
2. that it should distribute food stores, first of all at the places of work;
3. that it should bring concrete measures for the care of the sick and the children;
4. that civilians who lost their homes should be housed in every available space.

2143 Radio KOSSUTH gives a report on the situation in BUDAPEST. Food shops were open in several districts of BUDAPEST on November 8. People had to line up for hours to obtain bread. Work was resumed at several work-shops. Looting increased in some districts. Several parts of the town are in flame, the fire was caused by incendiaries. The extinguishing of the fires is prevented by armed "bandits."

2155 In BUDAPEST, posters appeared, which were printed by the counter-revolutionaries. These posters favor the stopping of bloodshed but at the same time attack the KADAR government, for slandering, in their view, the Hungarians in calling them Fascists and counter-revolutionaries. According to the commentary, this is not true. The KADAR government knows that the Hungarian people are not Fascists and is aware that only a fraction wanted to transform the events of the last days to a Fascist coup d'Etat.

2215 Minister of State Gorgy MAROSAN reads the appeal of the Hungarian government.
According to the appeal, starvation threatens the population. To avoid it, it is necessary to resume work immediately. But this is made impossible by the still prevailing disorder. Therefore, the government appeals to everyone to hand in their arms, to clear the rubble and to help in the resuming of normal life.

(In contrast to November 7, when the KADAR government showed
very little sign of life, a sharp increase in government
decrees and statements was noted on November 8. In spite
of this activity the regime's broadcasts reveal that
a) there has been no general resumption of work, and
b) fighting continues in a number of areas.)

NOVEMBER 9

0630 Appeal of the headquarters of the BUDAPEST garrison to the
citizens of BUDAPEST: to report about any discarded weapons
they might find. Work should be resumed in the factories.
In this view it is absolutely necessary to transport the
workers of the rural areas to the centers of industry and
to take them home again. Railway workers, start working.

0710 On account of the counter-revolutionary activities, KOBANYA
is still cut off from the other parts of the city because the
"bandits" endanger the safety of transport service. Some
"bandits" have entrenched themselves into the champignon
cellars and into the water tower of the X. district. (Radio
KOSSUTH.)

0743 Radio KOSSUTH gives informations about BUDAPEST districts on
the 6th day of the 2nd Soviet interference;
District I: Some armed men came down from the Castle and
asked for help which, however, the population refused be-
cause they had enough of the fight and wish to live in peace.
District II: Peasants brought food to the market of Peny
street this morning. Small armed units are reported to have
looted the district party committee building on November 8.
District III: In the O-Buda Gas factory, due to the heroic
efforts of the manual and office workers, the gas supply of
BUDAPEST is assured.
District IV: The population objects that no adequate in-
formation was forwarded by the factories on how and in what
way the work should be resumed in the factories.
District V: Nothing special happened in the city during
last night. Discarded weapons were found at several places.
Armed men left some of the cellars. At several places, the
"bandits" wished to break into the houses but were prevented
by the inhabitants.

0935 At the Hungarian Steel Factory, last night was quiet. The
25-member workers' guard watched over the factory, and re-
pulsed an armed attack.
The activities of the BUDAPEST police headquarters are entirely confined to the restoration of law and order and public safety. For this purpose, the so-called "R" groups are being formed, whose duty will be to liquidate the criminal, looting elements and to prevent the inhabitants from being bothered. Within a short time these "R" groups will appear on the BUDAPEST streets.

The chief of the National Police appeals to the tenants' committees and janitors of the BUDAPEST houses to collect all arms, ammunition and explosive material to be found in the houses and to hand them over to the district police.

Radio Kossuth on Imre Nagy and Mindszenty. The enemy radio spread rumors that the Imre Nagy government was arrested. We inform the people that these rumors are not true. Imre Nagy left the parliament on his own decision. Several members of the Nagy government actively support the workers-peasant government and are engaged in public activities. The other members of the dissolved Imre Nagy government also left the Parliament as free men and on their own decision. The news about the arrest of Cardinal Mindszenty is equally untrue.

The appeal of the Government Committee for Public Supply: 1. The market retailers and the enterprises are asked to start selling their goods on the markets as soon as possible. Besides the small tradesmen with a licence, only those who have no licences might sell food on the markets without a special permit.

2. Provincial councils and social organizations who are sending food articles to the capital are asked to transport first of all bread and flour, meat, potatoes, milk and milk products.

Imre Docei, Minister of Agriculture, appealed to the members of the co-operatives and machine stations to defend the property of the farms from looters.

The committee for public supply issued a decree on the registration and blocking of transport fuel: All transport fuel, gasoline and motor oil found in the capital has to be "frozen." From November 10 it can be used only with the permission of the committee of public supply.

According to the instructions of Deputy Premier Perenc Munnich, those sentenced for ordinary criminal offences and who left prison after October 23, before serving two thirds
of their sentence, should immediately report at the nearest prison. Those who report before 1200 hours, November 11, will be pardoned one third of their prison sentence.

The Presidential Council proposes the change of some parts of the constitution. Changes to be made in the paragraph on state administration and the paragraph on the emblem of the Hungarian Republic.

The emblem of the Hungarian Republic is the Kossuth emblem.

Two Hungarian ministers visited Dunapentele and held discussions with the leaders of the town and the Soviet military command. It was ascertained that no serious damage was done to the town and the iron works.

(The military situation:

The Communist radio broadcasting on shortwave* to provincial stations reported on November 9 that in BudaPest resistance troops had begun renewed sharp attacks in the outskirts. These resistance groups were opening fire unexpectedly, than disappearing to start an action somewhere else.

To put an end to such partisan activity, the Soviet city command had issued instructions for the persons responsible for apartment houses to lock all cellar entrances and to barricade all passageways between the cellars.

Larger partisan groups were operating in the 3rd, the 6th and 20th districts, as well as in the Buda hills. The situation was particularly serious in outer Kobanya and Csepel suburbs where, according to the aforementioned radio, the resistance groups were being constantly provided with reinforcement from rural areas.

The same radio, monitored in Vienna at 0500 hours on November 10, reported that Soviet troops were steadily attacking the resistance nests. Hard fighting was going on in the 1st, 3rd, 9th, 13th and 20th districts. In downtown the freedom fighters were hidden in the damaged houses and cellars. In Guszev street the insurgents had built up a "fortification" and so far repelled all Soviet attacks. At the small Gellert hill, in outer Kobanya, and in the Aron Gabor Factory, the Soviets were using heavy guns against the freedom fighters. Fighting continued at Csepel, the industrial center on the outskirts of the capital. On the Buda side the freedom fighters were dislodged from some positions and reformation based on this shortwave Communist station (see pp. 47, 49, 50 and 52) was not stored directly by RFE. Its validity cannot therefore be guaranteed to the same degree as the other monitored information.
treateding in direction of the BUDA hills.

Struggle in the Provinces.

According to the same transmitter, on November 9 the front of the resistance fighters at DUNAPENTELEY was broken.

The partisans at KALOCSA were still strongly holding their positions.

The same radio, monitored in VIENNA at 0500 on November 10, said Soviet troops were carrying out encircling moves in the Matra and Bukk woods. The insurgents had created a unified front in the area of RUDABANYA, APATPALVA and SZENDRO-LAD.

In the southern region of the country, in the woods of Komlo and the Macsek mountain, fighting was continuing. In the area of SZIGETVAR the Soviet troops attempt to cut the retreat of freedom fighters toward the Western border line.

In the area of KAPOSVAR several villages, KAPOSMERO, BARDUD-VARNOK and others, are in the hands of the insurgents. Soviet artillery was used against these villages.

In the BAKONY woods Soviet troops were in contact with freedom fighters.

In MOHACS the resistance of the revolutionaries had been liquidated. In the area of NAGYKOROS the freedom fighters committed acts of sabotage and carried out surprise attacks against Soviet patrols.

In County SZOLNOK partisan groups caused severe damage to railway lines and communications.)

NOVEMBER 10

0500 "Nepszabadsag" (the daily of the Hungarian Socialist Workers' Party) emphasizes in its article that Stalinist terror will not return to Hungary. The government protects the democratic achievements of the revolution.

0510 Railwayworkers are called upon to resume work immediately.

0515 According to reports from the provinces, workers demanded
wage increases.

0520 The reorganization of the BUDAPEST police is being started. So-called "R" (for the maintenance of order) groups are set up, whose task it is to put an end to looting. Armed workers guards are also set up in factories and districts.

0907 The PECS Radio made an appeal to the parents of young people fighting in the Mezeik woods, saying the parents would be transported to the Soviet lines at 1100 hours to make appeals over loudspeakers to their children to lay down their arms.

1000 BUDAPEST workshops hold meetings at which the resumption of work is discussed.

1005 According to the radio, the factories are unable to work as they do not have a sufficient supply of electric power. Power plants are unable to produce sufficient electricity, as they do not get coal.

1200 Approximately 10 to 20 per cent of BUDAPEST workers reported today at their places of work.

1220 During the past few days a number of farmer's cooperatives were dissolved in county Szolnok. The county committee did not raise any objections to this. (This is the first report on the fate of the cooperatives.)

1502 According to the decree issued by the Presidium, legal proceedings in connection with certain crimes (murder, set on fire, looting and the use of arms) will be simplified and speeded up.

2008 Starting from January 1, 1957, the government abolishes the tax imposed on childless parents because "this is contrary to the principle of voluntariness in connection with setting up a family."

2010 As from November 10 railway transportation is commencing on several lines. First of all, workers' trains will be put into operation.

NOVEMBER 11

0810 According to the BUDAPEST chief medical officer, the number of contagious diseases in BUDAPEST did not increase during the past few weeks. Medical supply is satisfactory.
(The KADAR speech is a step on the road to concessions. It confirmed the abolition of deliveries. It recognized the achievements of the revolution up to October 29. Wage increases were promised from January 1 1957. Those whose wages were under 1,200 forint to receive an increase of 15 per cent, those over 1,500 forint, eight to ten per cent. Recent decrees on the abolition of the tax for childlessness, changes in the army's uniform, the introduction of the KÖSSUTH emblem, and the declaration of March 15 as the national day, were confirmed.

KADAR spoke about persons of different party allegiance and ideologies: in his view, these have to participate in the leadership of the state. KADAR imagines this participation through the medium of the People's Patriotic Front. He does not refer to the question of whether the democratic parties will be able to function constitutionally. He did not mention free elections.)

1700 Radio KÖSSUTH announces: The burial of Imre MEZO, Secretary of the BUDAPEST Party Committee, who was murdered by the counter-revolutionaries, is going to take place on Monday afternoon. (The burial was postponed.)

1900 Radio KÖSSUTH reports fights are taking place in VAC and along the roads leading to Austria.

1910 Shortage of raw material prevents the starting of production in provincial factories.

1930 The first Revolutionary Militia Regiment was set up in BUDAPEST. It consists of army officers.

2200 BUDAPEST factories discuss the resumption of work. Long lines are standing in front of food stores.

2215 According to the Radio KÖSSUTH, the mines are already working; their output being 20 to 25 per cent of the normal output.

(The Austrian socialist deputy Peter STRASSER, who returned from BUDAPEST to VIENNA on November 10, stressed that the passive resistance was "unbelievable." People stood in front of Russian tanks, openly wearing the revolutionary red-white-green colors and making anti-Soviet remarks. One of the main weapons of this passive resistance appears to be the nation-wide determination to maintain the strike.)

The Military Situation

(According to AP November 11 in BUDAPEST suburb UJPEST "revolutionaries" still held out despite heavy shelling and continuous attacks by Soviet forces. Soviet tanks completely destroyed two rows of small family houses of
workers flanking a street in that district.

On CSEPEL island workers were entrenched in one of the factories on November 10 and set 14 Russian tanks afire by flooding them with oil and gasoline from hoses.

The Communist-controlled shortwave radio station monitored in VIENNA reported early on November 11 that groups of insurgents, hiding in the cellars and collapsed buildings and in the suburbs of the capital, were continuing their resistance. Larger insurgent groups were forced out of BUDAPEST and were trying to escape to the West. Soviet troops were trying to cut them off.

Speaking from Radio KOSSUTH on November 11, at 1000 hrs, Premier Janos KADAR pointed out that order and peace had not yet been restored in BUDAPEST. The remnants of the liquidated armed groups hid in cellars and other places during the day, but formed small bands and came out at night to act as snipers and robbers.

KADAR expressed the hope that those groups of snipers and robbers would be wiped out completely within the next two or three days. He called upon the workers of BUDAPEST to help destroy them.

At 1232 hrs November 11 Radio BUDAPEST said that the main line of activity of the BUDAPEST police was the liquidation of "groups of plunderers." Armed persons were hindering the distribution of food; in some places they attempted to interfere with the selling of food in shops.

Radio MISKOLC, reported November 11 that the "counter-revolutionary" officers, NCOs and enlisted men converging around the person of Pal MALETER, as well as armed groups of university students and young workers, were still continuing their "inexplicable" resistance in the Matra and Bukk woods. They were occupying several coal mines of the BORSOD coal miner trust, thereby preventing production from starting in the factories. Action against them was difficult because, as they were entrenched in the coal mines, the Soviet troops did not want to resort to heavy weapons.)

According to the proposal the election should be prepared by the trade union committee of each workshop. This committee should put forward a list of candidates. The elections are to be secret. The workers have the right to strike off a candidate from the list and add another one. The workers' council thus appointed decides on the most important matters concerning the factory.

According to the instructions issued by the Minister of Armed Forces, the demobilization of border guards, who completed their service, will take place at a later date.

According to reports from the provinces, the majority of factories resumed work, yet production is very low.

Armed groups moving from BUDAPEST toward the West reached TATABANYA and are endangering the traffic.

The BUDAPEST Police Headquarters announces that the police cannot undertake the guarding of factories. Workers' guards should be set up for this purpose.

A government committee has been set up for the reconstruction of BUDAPEST.

It was not yet possible to restore order in VAC.

The population of county ZALA demands that a decree of legal force should be issued on the abolition of delivery quotas. They also request the government to express its opinion on the freedom of religion.

Political Situation

(Reports that KADAR, in desperation, was seeking the collaboration of Imre NAGY (Agencies and "New York Times" November 12) were followed today by a UP dispatch from VIENNA that NAGY had rejected pleas to join the puppet government.

Reuter reported that NAGY and other members of his government had taken refuge in the Yugoslav Embassy. Reuter BELGRADE said that a Yugoslav foreign ministry spokesman refused to comment on the report that NAGY had been given refuge, but it was noted in BELGRADE that KADAR visited the Embassy on November 12 - ostensibly to discuss Yugoslav aid.

According to Ernst HALPERIN the KADAR government has no authority whatsoever and, at best, has only remnants of the administrative apparatus at its disposal.

The impotence of the KADAR government, and especially its incapability of mastering the situation in the capital, led a spokesman of the British Foreign Office to declare on November 12 that the British Government "had no evidence that the Communist Government of Janos KADAR was actually in BUDAPEST." The Foreign Office spokesman added that the fact that the British Legation had been in contact with the Hungarian Foreign Ministry on the question of safe conduct of personnel did not imply British recognition of the KADAR government.)

NOVEMBER 13

Popular Pressure Forcing Concessions

(Marked recommencement of Hungarian political life since second Soviet intervention of November 4, with same process beginning again -- popular pressure forcing concessions from regime.

Strike continues, in spite of appeals.

Posters and leaflets in BUDAPEST, signed by students and workers group, urging Soviet withdrawal from Hungary and return of NAGY government to power.

Meeting in BUDAPEST of all Hungarian intellectual groups (writers, actors, architects, musicians, artists, students, radio, academy of science) sent resolution to KADAR regime demanding:

1. Hungary to be "neutral country, free from all foreign power... Soviet troops should leave country." (Note: think this means neutral in sense of no foreign domination rather than in technical sense of international law.)

2. Democratic socialism in accord with national traditions.

4. In effect, renouncement of claim for multi-party system and free elections: "in present historical situation interest of political parties do not serve national unity..."

5. Protest versus terror, arbitrary action, Stalinism.)

Military Situation

(According to the Communist-controlled shortwave radio station monitored in VIENNA, the military situation in Hungary early on November 12 was:
In the suburbs of BUDAPEST considerable "counter-revolutionary" forces resumed their attacks on Soviet troops and Hungarian security forces, but were being defeated.

Guerrilla troops which had escaped into the forests around BUDA were moving to the west. Part of the "counter-revolutionary" forces which broke out from UJPEST (BUDAPEST 1th district) crossed the Danube at NAGYMAROS and joined the revolutionary groups operating in the ESZTERGOM area.

In the woods of Mecsek and Komlo the revolutionaries were putting up stubborn resistance, and Soviet troops began a planned action against them. A larger group of revolutionaries succeeded in breaking through from the SZIGETVAR area to the west.

The lead article of "Nepszabadsag" deals with the danger of inflation. It stresses that "certain demagogic elements" prevent the workers from resuming work. A continued strike would easily lead to inflation.

According to information from the National Police Headquarters, small groups of fighters are still disturbing the population. Armed guards were formed for the protection of the enterprises and State farms.

Radio VESZPREM reports that several enterprises in VESZPREM ask for a revision of the norms system. A shortage in material is a serious obstacle to production.

Teaching in the BUDAPEST elementary and secondary schools has not yet begun.

The GYOR wagon factory sent a delegation to the Council of Ministers. If the delegation receives satisfactory answers to their demands, work will be resumed in the factory.

An appeal was made by the members of the Hungarian armed militia that the workers should resume work.

The head of the Hungarian Red Cross reported on the manner in which the foreign gifts will be distributed. BUDAPEST has priority and will be followed, subsequently, by the industrial centers and the provinces.

According to a government resolution, all those, who did not resume work until November 10, will not be paid for the days they refused to work.

The answer of the Hungarian Government to the UNO announcement was broadcast: There is no reason why UNO observers should come to Hungary. At the same time, the Hungarian Government accepts the presence of UNO representatives,
charged with the distribution of Red Cross shipments. All Hungarian citizens who left the country in order to escape the military actions, will be guaranteed a free return by the Hungarian Government.

1730 Work in the BAJA enterprises was not resumed. The workers sent a delegation to the government with their demands.

2000 According to a decree issued by the government, the Workers' Councils' authority is extended to the whole area of enterprise life. The enterprise managers are obliged to carry out all the resolutions passed by the Workers' Councils. The Workers' Council decides on the formation of the wages system and on the distribution of a certain part of the profits among the workers. The re-election of the Workers' Council members should take place within three weeks after the resumption of work.

2210 At UJFEST, the delegates of the BUDAPEST District Workers' Councils held a meeting. The result of their discussions was to establish the central organ of the BUDAPEST Workers' Councils. Their discussions will be resumed on November 14.

2230 The radio broadcast the speech of Sandor GASPAR, President of the National Association of Free Hungarian Trade Unions. He deals with three main problems: 1. An appeal to the workers to resume work immediately; 2. - a condemnation of the one-party ruling; 3. - an energetic stand for the independence of Trade Unions from the parties and the government.

The General Strike.
(While armed resistance to the Soviet forces and the security organs of the KADAR government has disintegrated more and more into partisan action, both in BUDAPEST and in the provinces, Hungarian workers have maintained an almost complete general strike as a final weapon against the Russians. A Western press agency reports from unidentified sources in Hungary that on November 13 workers reported to their factories only to collect their pay and to hold mass meetings, during which various demands were formulated to the KADAR government. These demands reportedly included the reorganization of the government with NAGY as Premier, the fulfillment of the NAGY program, and free elections.)
KADAR Regime Ineffectual

(AP Correspondent MARTON reported today that the Hungarian Parliament, still protected by "masses of Russian tanks and guns" appeared to be the only place where the KADAR group was still 'master of the situation.' He added that "nationalist minded Government officials did not conceal their opinion that Imre NAGY was the only man who could solve the present situation.")

4. Withdrawal of Soviet troops from Hungary;
5. Guarantee that the radio and the press will speak the truth.

7. Trade agreements should be published and the disadvantageous agreements should be canceled.

The Strike

(It appears clear from official broadcasts of Radio KOSSUTH that the KADAR government is making desperate efforts to put an end to the strike. It addresses imploring appeals to the workers, in particular to those of the capital, where the strike seems to be more extensive than in the counties. It resorts to depicting, in the gloomiest colors, the spectre of inflation. Workers who refused to take up work by November 10, and had maintained their refractory attitude, would not be paid for the days they were not working, the radio announced.

There are signs that the government is deciding to try other means. It listens to the demands of workers' delegations from BUDAPEST and the counties, but stresses that the continuation of the strike will not lead to the withdrawal of Soviet troops and that it is time for everybody to realize that.)

Armed Resistance

(As to the remnants of armed resistance, "Nepszabadsag" reported November 14 that "armed persons were moving around in BUDAPEST, pillaging, breaking into flats." The Communist controlled shortwave broadcasting station

Numerous but widely varying "eyewitness" accounts of such deportations have been reported to Western diplomatic missions in BUDAPEST, according to a Western news agency. KOSSUTH radio in BUDAPEST acknowledged at 1600 on November 14 the existence of the rumors, and their effect on the population. It stated that as a result of rumors spreading in SZOLNOK railroad employees again went on strike. They also reportedly spread the reports to other enterprises, where workers also again walked out.)

No power can wrench from our hands our most powerful weapon -- the right to stop work if the negotiations, conducted after the resumption of work, should not bring satisfactory results."

On November 15 several delegations of workers called on Janos Kadar and negotiated with him. The president of the Workers' Council of the Hungarian Steel Factory stated that as a result of the negotiations it was decided that work would be resumed on November 17, with the maintenance of the right to strike. The title of today's leading article in "Nepszabadsag" is "With renewed forces." The article commented on the fact that the BUDAPEST workers councils decided to resume work on November 17. According to the article this decision was made because the workers realized that the aims of the KADAR government were in accordance with their demands.
"Nepszabadsag" reported on the second discussion which took place between the Budapest workers' councils delegation and the KADAR government on the evening of November 16. **NOVEMBER 18**

The leading article of today's "Nepszabadsag," entitled "For an independent Hungary," condemned the criminal policy of the RAKOSI clique, whose chief crime was to renounce the country's independence. The Soviet army had come into the country to fight "white terrorism" and not to re-establish the harmful policy of the GERO-RAKOSI clique. "The Hungarian people's desire for freedom has now become so great that no force can suppress it."

(It is evident from this leader that the KADAR government accepts the carrying out of the following demands:

1. Amnesty to the participants in the revolutionary people's movement.

2. The abolition of the AVH.

3. March 15, National Day, holiday; October 6, National Day of Mourning; December 26, holiday.

Maintaining these demands, the presidium decided to resume work on November 19.

Minister Gyorgy MAROSAN called upon the workers to put an immediate end to the strike. He said that for the time being the counter-revolutionary elements had stopped fighting with arms but tried to overthrow the people's power through propaganda and demagogy, as by incitement to strike. According to MAROSAN, these propagandists (RFE among them) had won over for their cause journalists, writers, and students, who preach "the insane strike."

The title of one "Nepszabadsag" article is: "To the margin of a poster." It says that the signatories of the posters either do not exist or do not know about them. (This is the situation with regard to a poster attributed to the Writers' Union.) According to another poster, the formation of officers regiments failed, because "the officers are compelled to sign declarations which they cannot accept." The commentary continues: "We do not want to discuss whether this declaration was acceptable or not." The article merely stated that the officers' units were now active.

According to the statement of Geza SZENASI, chief prosecutor, the public prosecutor's office does not only deal with common crimes but also with political ones. He announces that so far Soviet authorities handed over 400 persons in SZOMBATHELY and 250 in BUDAPEST to the Hungarian authorities. Their cases are under investigation.

(In the course of the day, the Government of Yugoslavia sent a Note to the BUDAPEST Government asking for urgent information on why Imre NAGY and his companions did not return to their homes, as on November 21 a Hungarian-Yugoslav agreement was reached to the effect that Imre NAGY and his companions would be able to return home unharmed.

In line with the agreement, Imre NAGY left the Yugoslav Embassy by bus. But the bus was diverted to the Soviet headquarters where the two Yugoslav diplomats accompanying NAGY and his companions, who protested the Soviet actions, were sent away.

Yugoslavia also sent a Note to the Soviet Union on the Imre NAGY affair.
The Yugoslav Note to the BUDAPEST Government emphasizes that this action seriously endangered the relations of the two countries and would not effectuate calm in domestic policy but just the contrary.

Among the persons with Imre NAGY were: Geza Losonczi, Ferenc Donath, Zoltan Vas, Zoltan Szantho, Gyorgy Lukacs, Gabor Tancos, Sandor Haraszti and Mrs. Laszlo Rajk.)

Zoltan SZANTO  

Zoltan TILDY  
I. It was this speech by GERÖ which sparked the uprising. After it demonstrators gathered outside the Radio building, and sent a delegation inside to request the broadcasting of the demands which were read out during the afternoon demonstration near the Bem statue. When the delegation did not return after some time, the demonstrators tried to penetrate the building. It was then that the first shot was fired. Excerpts from the speech:

"Dear comrades, beloved friends, the working people of Hungary! In July this year, the CC of the HWP brought important resolutions. Our party members, workers class, working peasantry, intelligentsia and whole people received these resolutions with satisfaction... The July resolutions could only determine the direction, and stress the chief tasks but they could not give a solution to every problem facing our country and our people. Many of these problems need a further thorough studying in order to find the solutions which are best suited to the actual situation of our country, to our national character and to the interests of our workers' class, and our people. Our Party management is fully determined to direct the further building of Socialism in the spirit of our July resolutions, to rely more and more on our workers' class, on our cooperative and the whole working peasantry, on our intelligentsia and on the millions of our people. It is our determined and unalterable will to develop, broaden and intensify the democracy in our country, to increase the participation of our workers in the management of factories, state farms and other economic institutions. However, we naturally want a Socialist Democracy and not a bourgeois democracy. According to our conviction both our Party and our workers' class and people are jealously guarding the achievements of our People's Democracy and do not permit that anyone should touch them. We shall defend these achievements under all circumstances from whatever side they are threatened. Today it is the chief aim of the enemies of our people to try to shake the power of the workers' class, to loosen the peasant-worker alliance, to undermine the leading role of the workers' class in our country and to upset their faith in the Party, in the HWP. They try to loosen the close friendly relations of our nation, the Hungarian People's Republic, with the other countries building Socialism, especially the relations between our country and the Socialist S.U. They try to loosen the ties between our Party and the glorious Communist Party of the S.U., the Party of Lenin, the
Party of the XXth Congress. They slander the S.U. They declare that our trade relations with the S.U. are one-sided and that our independence has to be allegedly defended not against the imperialists but against the S.U. All this is a barefaced lie, hostile slanders which do not contain a grain of truth ... We Communists are Hungarian patriots ... At the same time that we proclaim that we are patriots we also energetically state that we are no nationalists and that we wage a permanent war against chauvinism, antisemitism and all other reactionary, anti-social and inhuman trends and views. Therefore we condemn those who try to spread the poison of chauvinism among our youth and who use democratic freedom, which our state assured to the working people, for demonstrations with a nationalist character. However, not even this demonstration shakes the resolution of our Party to continue to proceed on the road of developing Socialist democracy ... So we do not want to meddle with the internal affairs of other countries. This is a matter of principle to us. We do not want to interfere with the internal affairs of Poland either ..."

II. Excerpts from the radio speech of Prime Minister Imre Nagy (24 October):

"People of Budapest! I inform you that all those who in order to avoid further bloodshed will stop fighting before 1400 hours today and lay down their arms will be exempt from the consequences of martial law. At the same time I declare that we will with all our forces carry out the democratization of our country in every field of Party, State, political and economic life, just as I have stated this in Parliament at the time ... We possess all possibilities for the carrying out of our political program with the support of the Hungarian people. The essence of this program is, as you know, the democratization of Hungarian public life, the observance of national conditions in the building of Socialism, the realization of great national tasks and the basic improvement of the working people's standard of living.

In order to carry out this work together with you the first condition is order, discipline and the restoration of calmness. The peacefully demonstrating Hungarian youth has been joined by hostile elements who have misled many honest workers and have turned them against the People's Democracy, against the people's power. The first and the most imminent task now is to consolidate urgently the situation. Since today we understand one another in every question, since today the government and the majority of the Hungarian people are striving for the same aims. Referring to the common and great responsibilities of our national existence I call on you, on every Hungarian man, woman, youth, worker, peasant and intellectual, to stand your ground, to safeguard peace, to fight against provocateurs, to help restore order and to support the work of those formations who are trying to safeguard order. We must hinder bloodshed with common strength and we cannot permit that our national program should be soiled with blood."
III. Erno GERO was appointed first secretary on July 18 1956 when RAKOSI was forced to resign. GERO was permanently a member of the Politbureau since 1945, therefore also during the years when Janos KADAR, Geza LOSONCZY, Gyula KALLAI and others were arrested.

The new Politbureau has 11 members and two alternate members.

The former Politbureau had 12 members and four alternate members.

New personalities in the Politbureau on October 24:
Gyula KALLAI, Minister of Public Education who was imprisoned, Jozsef KOBOL, President of the Budapest Council, Imre NAGY and Zoltan SZANTO -- close collaborator with NAGY in the New Course. A new alternate member is Geza LOSONCZY, journalist, former under-secretary, who was also imprisoned until 1954. Sandor GASPAR, previously an alternate member, became a full member.

IV. Radio speech of Janos KADAR (October 25):

"Hungarian workers, dear comrades! The Pol. Committee of our Party has appointed me as First Sec. of the CC in a difficult and severe situation. There is not much time for speaking today. I will, therefore, only mention a few questions quite briefly. The difficult situation, in which we are, is characterized by that various elements are mixed therein. Part of our youth started peacefully but this honest demonstration by the majority of participants was after a few hours joined by anti-social elements and degenerated into an armed attack against the Power of the People's Democracy according to the intention of counter-revolutionary elements.

"In this difficult situation I had to make a decision. Our Party leaders were united in the opinion that the armed attack directed against the State Power of our People's Rep. should be beaten back by every possible means. The Power of the working population, of the working class and of the peasantry which was embodied in our People's Rep., is for us and for everybody who does not wish to have the people saddled with the old yoke of capitalists, of bankers and landowners, sacrosanct. Toward all those who did not take arms with the intention of overthrowing our People's Democratic order and who will immediately cease fighting and hand over their arms, toward all those youths and workers, members of the Home Defense who do this, the govt. in a spirit of friendship and pacification will show far-reaching generosity and not use Martial Law. At the same time, in the interest of the working population desiring peace and order and in the defense of our democratic state we will use the severity of the law against those who will continue to use arms to instigate and to loot. I protect with special care our working population from the irresponsible rioters, from the rumor-spreaders whose harmful work is one of the chief obstacles in the way for restoring our order. I am deeply pained by every drop of the blood of the innocent victims that was shed during these tragic days. Let this tragic fight be ended and let the useless shedding of blood be over.
"Hungarians, my friends, my comrades! Let us set out along the road for building a better and happier peaceful socialist future under the leadership of the Party."

V. Excerpts from the radio speech of Imre NAGY (October 25):

"Working people of Hungary, during the past days our country had to face tragic days. A small group of counter-revolutionary instigators launched an armed attack against the order of our People's Republic, which attack has been supported by a part of BUDAPEST workers because they were desperate about the situation of the country. This desperation has only been increased by the political and economic mistakes of the past, the correction of which has been demanded by the country's situation and by the general desire of our people. The new leadership of the Party and the govt., which is also standing under new leadership, are determined to draw the moral lessons of the tragic events. After order has been restored Parliament will soon be called together. At this Parliament session I shall submit a well-elaborated reform program which will include all important problems of our national life. This program demands the reorganization of the government on the basis of the unification of wide democratic national forces represented by the reorganized PPP. To the realization of this program it is absolutely necessary to stop the fight immediately, to restore order and peace and to secure continuation of production. I call on the working people of the country, on every true patriot, to support this with all their strength. As the President of the Council of Ministers I wish to announce that the Hungarian government will begin talks with the Soviet Union concerning the relations between the Hungarian People's Rep. and the Soviet Union, and among other things concerning withdrawal of the Soviet forces stationed in Hungary. These talks will be carried out on the basis of equality and national independence, between Communist Parties and Socialist countries. I am convinced that the Hungarian Soviet relations built on this basis will mean a firm groundwork for the true friendship between our peoples, for our national development and for our socialist future. The withdrawal of those Soviet forces the whose intervention in the present fight was made necessary for the preservation of our Socialist order will immediately take place after peace and order have been restored...

"Comrades, the CC of the Party proposes to the government that after the order has been restored the government should conduct talks with the Soviet government in the spirit of complete equality between Hungary and the Soviet Union, friendly cooperation and internationalism, concerning the settling of pending questions between the two socialist countries reaching a worthy and just solution for both of them.

"Workers, Communist comrades: Be steady and persevering, defend the order of the People's Power, our socialist state and the future of our working people."
VI. The AVH, the notorious State Security Police.

When the Minister of the Interior gave out this order, the AVH did not exist in practice in the provinces because a number of its members were arrested by the revolutionary councils.

VII. Radio speech of Imre NAGY (October 30):

"Working people of Hungary! Workers, peasants and intellectuals! The constantly widening revolution in our country, the enormous movement of democratic forces, have brought our country to the choice of alternatives. The National Government, in full agreement with the Presidency of the Hungarian Workers' Party, have assumed to undertake a decisive step in the life of our nation, of which I wish to inform the working people of Hungary in the following:

"In the interest of further democratization of the country's life, with the discontinuation of one-Party system the government will return to the system of the coalition Parties' democratic co-operation which had been born in 1945. In accordance with this, within the National Government a Cabinet with narrower limits will be established with the following members:

Imre NAGY
Zoltan TILDY
Bela KOVACS
Pereno ERDEI
Janos KADAR
Geza LOSONCZY
and persons who will be appointed by the Social Democratic Party.

"The government will submit a proposal to the Presidential Council of the People's Republic for the election of Janos KADAR and Geza LOSONCZY as State Ministers.

"The National Government calls on the General Command of the Soviet Forces to begin immediately with the withdrawal of Soviet troops from the territory of BUDAPEST. Simultaneously the National Government informs the population of the country that it will immediately start talks with the government of the Soviet Union concerning the withdrawal of Soviet troops from the country.

"On behalf of the National Government I want to declare that the local autonomous democratic organs established in the course of the revolution will be acknowledged by the National Government, and it will depend on them and is requesting their support.

"Hungarian brothers, patriots! True citizens of our country! Safeguard the achievements of the revolution, secure
order with all your strength and restore peace! The fratricidal war should not continue any longer! Prevent all possible disturbances, assure the security of life and property with all forces at your disposal!

"Hungarian brothers, workers, peasants! Stand by the government in its decisive step! Long live free democratic, independent Hungary!"

(VIII. Radio speech of Janos KADAR (October 30):

"I declare that every member of the MDP Presidency fully approves of the decisions passed today by the Presidency of the Council of Ministers. On my part I can say that we fully approve also of what has been said by the previous orators, Imre NAGY, Zoltan TILDY, and Ferenc ERDEI, my friends and fellow countrymen whom I respect very much.

"I am speaking to Communists, to those Communists who joined the Party moved by the progressive spirit of humanity and by socialism and not by private interests; we should represent our pure and just ideals with pure and just means.

"Comrades, my fellow workmen! The wrong direction of the years past has cast heavy shadows upon our Party. We must entirely liberate our Party from these shadows and charges with clear conscience, and with courageous, straightforward resoluteness. The rows of the Party will swag but I am sure that no pure, honest and sincere Communists will turn the back to the Party. It is possible that those persons will leave the Party who joined it for selfish interest, for careerism, or for some other reasons, but it would not bother us to be freed from this burden and from the past crimes of certain of our leaders. We shall be able to fight for our ideals, for the benefit of our people, fellow countrymen and home country under more favorable and clearer conditions. I request every Communist personally to give a good example, an example without phrases, worthy of a human being, of a Communist, in the restoration of order, in the starting of a normal new life of work and production, in laying the basis of life's elementary order. With the honor acquired by acting like this we shall deserve the respect of other fellow countrymen too."

(VIII. Radio announcement of Imre NAGY (October 30):

"In the name of the Council of Ministers of the Hungarian People's Republic I acknowledge and confirm the formation, as from today, of the provisional revolutionary police committee, consisting of representatives of the forces participating in the revolutionary fights, the Hungarian Army and police force, and representatives of armed workers and youth units which are being formed.

"The revolutionary police committee should organize
the new police force from these units. With the help of these
the committee should restore order in the country and fulfill
the conditions of the government programs announced on October
28 and 30. The revolutionary police committee should function
till the taking office of the new Hungarian Government created
by general, secret elections."

X. Radio speech of Imre NAGY (October 31), at the Parliament
square:

"I am once again addressing you, Hungarian brothers,
with great love! The revolution of which you were the heroes has
won! These heroic days have brought about our National Government
which will now fight for the freedom and the independence of our
nation. We will tolerate no interference in Hungarian domestic
affairs. We stand on the basis of equal rights, of national
sovereignty and the equality of nations. We will build our policy
firmly upon the will of the Hungarian people.

"Dear friends! Our sovereignty and independence are
living their first days. We have removed enormous obstacles
from the way. We have chased away the RAKOSI and the GERO gang.
They will answer for their crimes. They had tried to defile me,
too. They spread the lie that it was I who had called the Russian
troops into the country. This is a base lie. Imre NAGY, who
is the champion of Hungarian sovereignty, and of Hungarian inde-
pendence, could not have called in these troops. On the contrary,
it was he who fought that they may be withdrawn.

"My dear friends! On this day we have started nego-
tiations for the withdrawal of Soviet troops from the country and
for the repudiation of the duties which fell to us in the WARSAW
Pact. But we are asking you for patience. I think the results
are such that you can give us that much confidence.

"My dear friends! Stand by us, support us in the
patriotic work, in creating the independence of our country, in
bringing back life and starting constructive work. We desire
that the people have peace and confidence in the future. We
ask you to have confidence in the government to create order and
peace in order that we may carry out our broad democratic pro-
gram.

"Long live the independent free and democratic Hungar-
ian Republic! Long live the free Hungary."

XI. Excerpts from Cardinal MINDSZENTY's radio speech (November
3):

"Nowadays it is often emphasized that the speaker,
breaking away from the practice of the past, is speaking sincerely.
I cannot say this in such a way. I need not break with my past,
by the grace of God I am the same as I was before my imprisonment.
I stand by my conviction physically and spiritually intact, just as I was 8 years ago, although imprisonment has left its mark on me...

"Now is the first instant in history, that Hungary is enjoying the sympathy of all cultured nations. We are deeply moved by this. A small nation has heart-felt joy that because of its love of liberty the other nations have taken up its cause. We see providence in this expressed by the solidarity of foreign nations just as it says in our national anthem: "God Bless the Hungarian - Reach out to him Thy protective hand." Then our national anthem continues: "When he is fighting against his enemy," but we, even in our extremely severe situation, hope that we have no enemy! For we are not enemies of anyone. We desire to live in friendship with every people and with every country. By a nation, such as the Hungarian, whose roots reach deeply into the past, various eras can be recognized by the feeling with which it fills its place among other nations. We Hungarians want to live and act as the standard bearers of the family peace of European nations. A peace not artificially proclaimed, but a peace which means true friendship between the nations. And even looking toward more distant parts, we, the little nation, desire to live in friendship and in mutual respect with the great American United States and with the mighty Russian Empire alike. In good neighborly relationship with PRAGUE, BUCHAREST, WARSAW and BELGRADE. In this regard I must mention that for the brotherly understanding in our present suffering every Hungarian has embraced to his heart Austria.

"And now, our entire position is dependent upon what the 200 million Russian Empire intends to do with the military force standing within our frontiers?

"Radio announcements say that this military force is growing. We are neutral, we give the Russian Empire no cause for bloodshed. But has the idea not occurred to the leaders of the Russian Empire that we will respect the Russian people far more if it does not oppress us? It is only an enemy people which is attacked by another country. We have not attacked Russia and sincerely hope that the withdrawal of Russian military force from our country will soon occur.

"In 1945, after a lost—and for us pointless—war, a regime was forced upon us, which is now being branded with the red-hot iron of contempt, condemnation and renunciation by its heirs. The regime was swept away by the entire Hungarian people. The heirs should not ask for a proof of this. This has been a freedom fight which was unparalleled in the world, with the young generation at the head of the nation. The fight for freedom was fought because the nation wanted to decide freely on how it should live. It wants to be free to decide about the management of its state and the use of its labor. The people itself will not permit that this fact should be distorted to the advantage of some unauthorized powers or hidden motives. We need new elections—without abuses—at which every party can nominate.
The election should take place under international control. I am and remain independent of any party and -- because of my office -- also above it.

"As the head of the Hungarian Roman Catholic Church I declare, just as the Bench of Bishops has stated in a common letter in 1945, that we do not oppose the direction of just historic progress and that we further a healthy development in every field. The Hungarian people will find it natural that we have to care for our institutions which have a great value and a great past. I further mention briefly for the information of the 6.5 million Catholics in the country that in Church life we shall remove every trace of the violence and the characteristics of the fallen regime. This is a natural consequence growing out of our ancestral faith and moral teachings and of laws which are as old as the Church.

"I deliberately do not discuss other details in my address to the nation; what I have said is clear and sufficient. As a conclusion, however, one question has to be asked: what do the successors of the fallen regime think? If their predecessors, which they condemn so much, would have had a religious-moral basis, would they have committed all the things which resulted in their fall? We justly expect the immediate granting of freedom of Christian religious instruction and the restoration of the institutions and societies of the Catholic Church — among other things, her press... We who are watchful and who want the best for the whole people, trust in Providence, and not in vain."
